PROFESSIONAL SUMMARY

Senior PHP full stack developer with 16+ years of experience building and scaling eCommerce platforms, ERP and POS systems, and business automation software. Deep expertise in PHP, Laravel, Magento and MySQL, with a proven record of delivering custom modules, REST API integrations and payment/shipping connections for businesses in Pakistan, Saudi Arabia and the USA. Experienced in ZATCA e-invoicing, remote collaboration with international teams, and diagnosing complex production issues. Known for building tailored solutions that cut manual work and keep critical systems reliable.

CORE SKILLS

Backend	PHP, Laravel, CodeIgniter, MVC, OOP, REST APIs, JSON, Webhooks
eCommerce	Magento 1 & 2, WooCommerce, WordPress, custom modules & extensions
Frontend	JavaScript, jQuery, AJAX, HTML5, CSS3, Bootstrap
Database	MySQL, query optimization, database design
Integrations	Payment gateways, shipping APIs, third-party APIs, ZATCA e-invoicing
Business Systems	ERP, POS, inventory, order management, workflow automation
Tools & Servers	Git, GitHub, Linux, Apache, Nginx, cPanel/WHM

PROFESSIONAL EXPERIENCE

POS System Engineer / ZATCA Integration Specialist Jan 2025 – Sep 2025
Shabic LLC | Saudi Arabia

- Built and maintained POS and business management functionality for live retail environments.
- Implemented ZATCA-compliant e-invoicing, covering invoice generation, API communication and integration workflows.
- Developed PHP integrations connecting POS, ERP and external services.
- Resolved production issues across transactions, invoices and APIs, improving overall system reliability.
- Supported deployment and maintenance of POS and integration components across business environments.

Automation Engineer / ERP Lead Apr 2023 – Dec 2024
Gulf Business Horizon (STC) | Saudi Arabia

- Led development and enhancement of ERP and business automation solutions.
- Automated workflows to reduce manual processes and raise operational efficiency.
- Designed and delivered integrations between internal systems and third-party services.
- Developed PHP modules, APIs and business applications from operational requirements.
- Translated business processes into technical solutions, covering ERP data structures, reporting and workflow logic.

Senior eCommerce Specialist / Magento Developer May 2018 – Feb 2023
TrucknTow USA | Remote from Pakistan

- Led development and maintenance of Magento eCommerce platforms for a US business over nearly five years.
- Built custom Magento modules, extensions and integrations covering catalog, checkout, orders, customers and inventory.
- Integrated payment, shipping and other third-party APIs into core eCommerce workflows.

- Optimized database queries and application performance for large-scale eCommerce operations.
- Created custom tools and automation to streamline day-to-day eCommerce operations.
- Collaborated remotely with US teams to plan, build, test and deploy new features.

eCommerce Specialist / Magento Developer

Apr 2015 – Apr 2018

iGate Technologies Pakistan | Islamabad

- Developed Magento applications and custom modules tailored to client requirements.
- Customized catalog, checkout, order, customer and admin functionality; integrated third-party APIs.
- Improved Magento performance and database efficiency; supported deployments and upgrades.
- Worked directly with clients to turn business requirements into technical solutions.

PHP Web Developer

Jan 2010 – Mar 2015

Bir Al Sabia | Islamabad

- Built database-driven PHP/MySQL applications using MVC and OOP, with custom modules and third-party API integrations.
- Handled database design, optimization and troubleshooting across the full development lifecycle.

Junior PHP Web Developer

Mar 2009 – Dec 2009

DnWtech | Islamabad

- Developed and maintained PHP/MySQL web applications; supported senior developers with features, testing and bug fixing.

CAREER HIGHLIGHTS

- 16+ years of professional PHP development, from custom applications to large eCommerce and ERP systems.
- Nearly 5 years leading Magento development remotely for a US company.
- Hands-on ZATCA e-invoicing integration experience for the Saudi market.
- Strong full stack range: backend logic, APIs, databases and frontend.
- Builds custom solutions rather than relying only on off-the-shelf software.
